### BTTF Auction Request Form

**Breast Treatment Task Force** (BTTF) provides screening, diagnostic follow-up, and treatment to breast cancer patients without health insurance. The majority of diagnostic and treatment costs are donated from surgeons, pharmaceuticals, and hospitals; remaining costs are supported by grants and donations. BTTF has delivered more than \$12.7 million in medical care to uninsured patients since December 2006.

BTTF patients work full-time and earn approximately \$35,000 per year, but do not receive health benefits from their employers. Since this population cannot afford to purchase health insurance for \$350 per month, they remain uninsured.

Please return completed form and donated item(s) to **Tanushree Laud** at [tanushree@the-btff.org](mailto:tanushree@the-btff.org). If you are mailing the donation, see mailing address below. The BTTF team is happy to pick up any donated items or certificates from your office.
